

# PREMIUM GRASS BLADES

# SOFT GRASS

AN ECONOMICAL AND EFFICIENT  
ARTIFICIAL TURF SOLUTION

---

Unlike heavier turf options, Soft Grass stands out due to its considerably lighter weight, making it easier to install, handle and move. Despite its lightness, it effectively mimics the look and feel of traditional artificial turf, ensuring that your space retains a natural and appealing aesthetic.

Soft Grass is the ideal choice for recreational applications and general light-use areas where aesthetics are important but high maintenance is not desirable.

**ROLL SIZE:**  
**12FT X UP TO 120FT**

**Total Weight**  
52 oz / sq yd
